1   Simulation of a local area network for a newspaper production system
J. Agre, I. Shahnawaz, M. Atkinson, D. Joshi, A. A. R. K. Sastry
December 1987 **Proceedings of the 19th conference on Winter simulation**

Full text available: ▤ pdf(1.07 MB)   Additional Information: full citation, abstract, references, citings, index terms

A computer simulation model has been developed for a Local Area Network (LAN)-based
newspaper production system (NPS). The objective is to develop a model that serves as a
performance evaluation and design tool for the NPS operation in a Manufacturing
Automation Protocol (MAP) environment. The approach taken involved developing three
modules that mimic the seven layers of the MAP/OSI (Open System Interconnection) model
from a performance evaluation perspective: (1) the medium access module ...

2   Computer simulation of communications on the space station data management system
J. R. Agre, J. A. Clarke, M. W. Atkinson, I. H. Shahnawaz
December 1987 **Proceedings of the 19th conference on Winter simulation**

Full text available: ▤ pdf(1.32 MB)   Additional Information: full citation, abstract, references, index terms

A discrete event simulation model for performance evaluation of various alternatives in the
design of the communication system on the Data Management System (DMS) of the space
station has been developed. DMS.SIM, the SIMSCRIPT-based model of DMS consists of two
components: (I) The communication architecture model of multiple, interconnected, fiber-
optic, local area networks (LANs) where the LAN access protocol is either token-bus or a
version of CSMA/CD with deterministic collision ...
